

A photograph of a luxurious bedroom. In the foreground, a bed with a white quilted coverlet and several white pillows is visible. The headboard is upholstered in a light-colored, textured fabric. The walls are a warm, golden-yellow color with white decorative paneling. A large window is covered with dark, patterned curtains and a sheer white curtain. A wooden nightstand with a small decorative object on top is positioned next to the window. A chandelier hangs from the ceiling. The overall atmosphere is elegant and sophisticated.

AFFINITY HOSPITALITY

— Premium Linen Manufacturer —

AFFINITY HOSPITALITY

We are manufacturer and supplier of high-end bath and bed linen for the hospitality industry.

With over two decades of experience, we specialize in manufacturing and supplying premium-quality linen to renowned hotel brands across the GCC and Africa. Our sustained growth and strong market presence are driven by long-term relationships with some of the region's most respected hospitality groups.

Supported by a highly skilled and certified team, we are committed to delivering consistent quality, reliable supply, and products that meet stringent hospitality standards. Our manufacturing expertise, attention to detail, and customer centric approach enable us to tailor solutions in line with each client's specific requirements.

Bath Linen

Our bath linen manufacturing facility is located in Pakistan and is equipped with 80 advanced air-jet and shuttleless looms, enabling us to meet diverse client requirements in terms of volume, quality, and customization.

We have the capability to manufacture a full range of bath linen, from economical grades to premium, high-end hospitality quality. Our integrated production setup allows us to produce plain white and yarn-dyed products under one roof, ensuring consistent quality control and shorter lead times.
